i. Outcomes Assessment - Jennifer Coopman

- Report for Student Learning Outcomes:
- The data load to the eLumen production site for Spring 2023 has been completed. An email was sent to all Faculty regarding CSLO assessment for Spring 2023.
- Created new assessments in eLumen for many courses with missing Spring 2023 assessments.
- Met with the eLumen Customer Support Manager, Kristen Nelson, on Monday, April 10, to discuss eLumen features and assessment deactivation.
- In the process of approving an SOW (statement of work) with eLumen to help with the creation of future CSLO assessments in eLumen. This project would only include assessments for current CSLOs so any changes to CSLOs after the project would need to have new assessments created by the SLO Coordinator (or designee). This project is intended to begin Fall 2023.
- Ongoing input to the Instructional Program Review Committee regarding SLOs.
- Corresponded with various Faculty regarding CSLOs, CSLO assessments, Department PSLOs, PSLO Mappings, Degree and Certificate PSLOs, Faculty Participation Reports, Department PSLOs in the Catalog, and eLumen.
- Ongoing maintenance of eLumen. This includes adding CSLOs for courses, creating CSLO assessments for courses, inactivating courses that are no longer active in CurricUNET, creating Faculty Participation Reports for departments, adding user roles, and communicating with the eLumen technical support team with technical issues. As a note, it is quite challenging to maintain eLumen since CurricUNET and eLumen do not communicate directly. eLumen and the CC Catalog not directly communicating is also a challenge.
- As a reminder, there is a “Resources for Student Learning Outcomes (RSLO)” Canvas course shell that includes CSLO and CSLO assessment information, Department PSLO information, Degree & Certificate PSLO information, SLO webinar recordings, ISLO information, and the SLO handbook. A self-enrolling URL link was included in an email to all Faculty.
- As a reminder, Fall 2023 will be the first semester that the Degree and Certificate PSLO component will be included on the Instructional Program Review Form. This means programs going through Fall 2023 program review should pre-launch Degree and Certificate PSLOs in CurricUNET by the Spring 2023 pre-launch deadline. All programs (not just programs going through Fall 2023 program review) can begin pre-launching Spring 2022. When modifying a program in CurricUNET, a link to the Degree and Certificate PSLOs template document is provided within the Help box in the Program

Student Learning Outcomes section. The document includes the following language: “Degree and Certificate PSLOs are designed to reflect the fundamental knowledge and skills students should obtain as a result of receiving a degree/certificate offered by instructional departments at Cypress College. To meet Accreditation standards, the College must regularly assess “learning outcomes for courses, programs, certificates and degrees using established institutional procedures.” (IIA3) Departments should write one or more PSLOs that reflect the core competencies for each degree or certificate. Initially, the Degree and Certificate PSLOs will be assessed annually via the Associate Degree and Certificate Assessment Plan (ADCAP) Student Survey. The results of the annual ADCAP survey will be evaluated every four years as part of the Department’s Program Review Report. Departments should discuss the Degree and Certificate PSLO assessment results in order to evaluate their programs for continuous improvement.” The document also includes sample language for Degree and Certificate PSLOs, including examples for various programs. Please consider using future flex days as a time to write Degree and Certificate PSLOs.

- As a reminder, when CurricUNET updates with a new course or with new/revised CSLOs for an existing course, the CSLO to PSLO mapping needs to be done/redone in eLumen for that course (even if the course had been mapped previously). Best practice is to do this mapping as the updates are made in CurricUNET. Departments should also update Department PSLO Mappings to reflect any CSLO mappings to Equity.
- The next SLO Committee meeting is scheduled for May 8, 2023.
 - A. Instructional Program Review Committee – Stephanie Rosati
 - Meetings held March April 10, 2023 at 3:04pm-3:54pm
 - Present: Stephanie Rosati, Myev Rees, Maha Afra, Peter Molnar, Jill Bauer, Ann Marie Ruelas, Kristina Oganessian, Jennifer Coopman, , Cherie Gentry, Margaret Mohr, Michael Beard, Regina Rhymes
 - Absent: Brent Kaufman, Bryan Ventura, Ernesto Herdeia
- Review final draft of annual report, fixed typos.
- Next steps: review timeline for presenting the report to senate.
- Review of Purposed - Annual Update Report Form
 - Are we following the same due date structure? When will the annual form be due?
 - Resolved: the due date will be the same October due date as the 4-year long form. Kristina will add the due date to the form.
 - Are we reviewing these forms every year, or are we just keeping them on file and reviewing them cumulatively during the 4-year review?
 - Resolved: IPRC would keep them on file, and review them in detail on the 4-year cycle or as needed for one-time funding requests between cycles.
- Jennifer: review SLO rates by division
 - CTE and Social science are the main areas of concern
 - Review of the eLumen process for checking PLOs and ISLOs
 - a. Discussion of Leadership Changes
 - Leadership changes. Myev will stay on, a call will go out for Stephanie’s position.
 - Regina and Myev will reach out to social science for candidates.

- Next IPRC meeting to be held on May 1, 2023 at 3pm.

Hello SEM family,

It is with great sadness I inform you that Cypress College Professor of Engineering, Physics, and Mathematics Allen Mottershead passed away on February 14th, 2023, at about 10:00 pm. He passed away from advanced sepsis caused by an infection in his intestines. Allen was 86 years old.

He was mentally alert and having conversation with family members until the end. He was buried at Pacific View Memorial Park in Corona Del Mar. He is survived by his son, daughter, 5 grandchildren and his wife of 30 years. He insisted on having no memorial service.

Allen Mottershead taught at Cypress College for more than 35 years. He first started by teaching Electrical Engineering classes and then taught Physics and Math. He was a great teacher, well-liked by students, a champion of helping EOPS students succeed in their math classes. He designed and built our highly advanced electricity and magnetism experiments (Phys 222 General Physics II) that are still being taught by our physics faculty.

He authored many books in electrical engineering and the lab manual for Phys 222. He also worked as a consultant for the Honey Baked Ham Company and designed their automated ham glazing mechanism. He traveled all over California to troubleshoot their glazing machines.

At Cypress College, He served on countless hiring and tenure review committees. He had a love of learning and teaching. He also loved engineering and his passion for it was evident to faculty and students. After he retired from Cypress College, he continued his tireless hard work and consulted until the time of his death.

He was a mentor, advisor, and a great friend to many of us in the Physics and Math departments. He will be missed by all of us here at SEM.
